RoHS Statement

As a distributor, Udisys is able to designate products as RoHS compliant based solely on information provided by its suppliers. This means that the supplier has confirmed the products either do not contain any of the restricted substances, or the product contains restricted substances with concentrations below the permitted level under the RoHS with European Directive 2000/95/EC (RoHS) and 2011/65/EU (RoHS2). These Directives restrict the use of the hazardous substances listed below in electrical and electronic equipment (EEE).

- Lead
- Mercury
- Cadmium
- Hexavalent Chromium
- Polybrominated biphenyls
- Polybrominated diphenyl ethers

Udisys ensures its products are bought from reputable companies and maintains records regarding RoHS compliance declarations provided by them.
